

The 3rd International Symposium for MEXT Grant-in-Aid for Scientific Research on

Analysis and Synthesis of Multidimensional Immune Organ Network

13th – 17th March 2017

Shiran Kaikan, Kyoto University, Kyoto, Japan

Keynote speakers

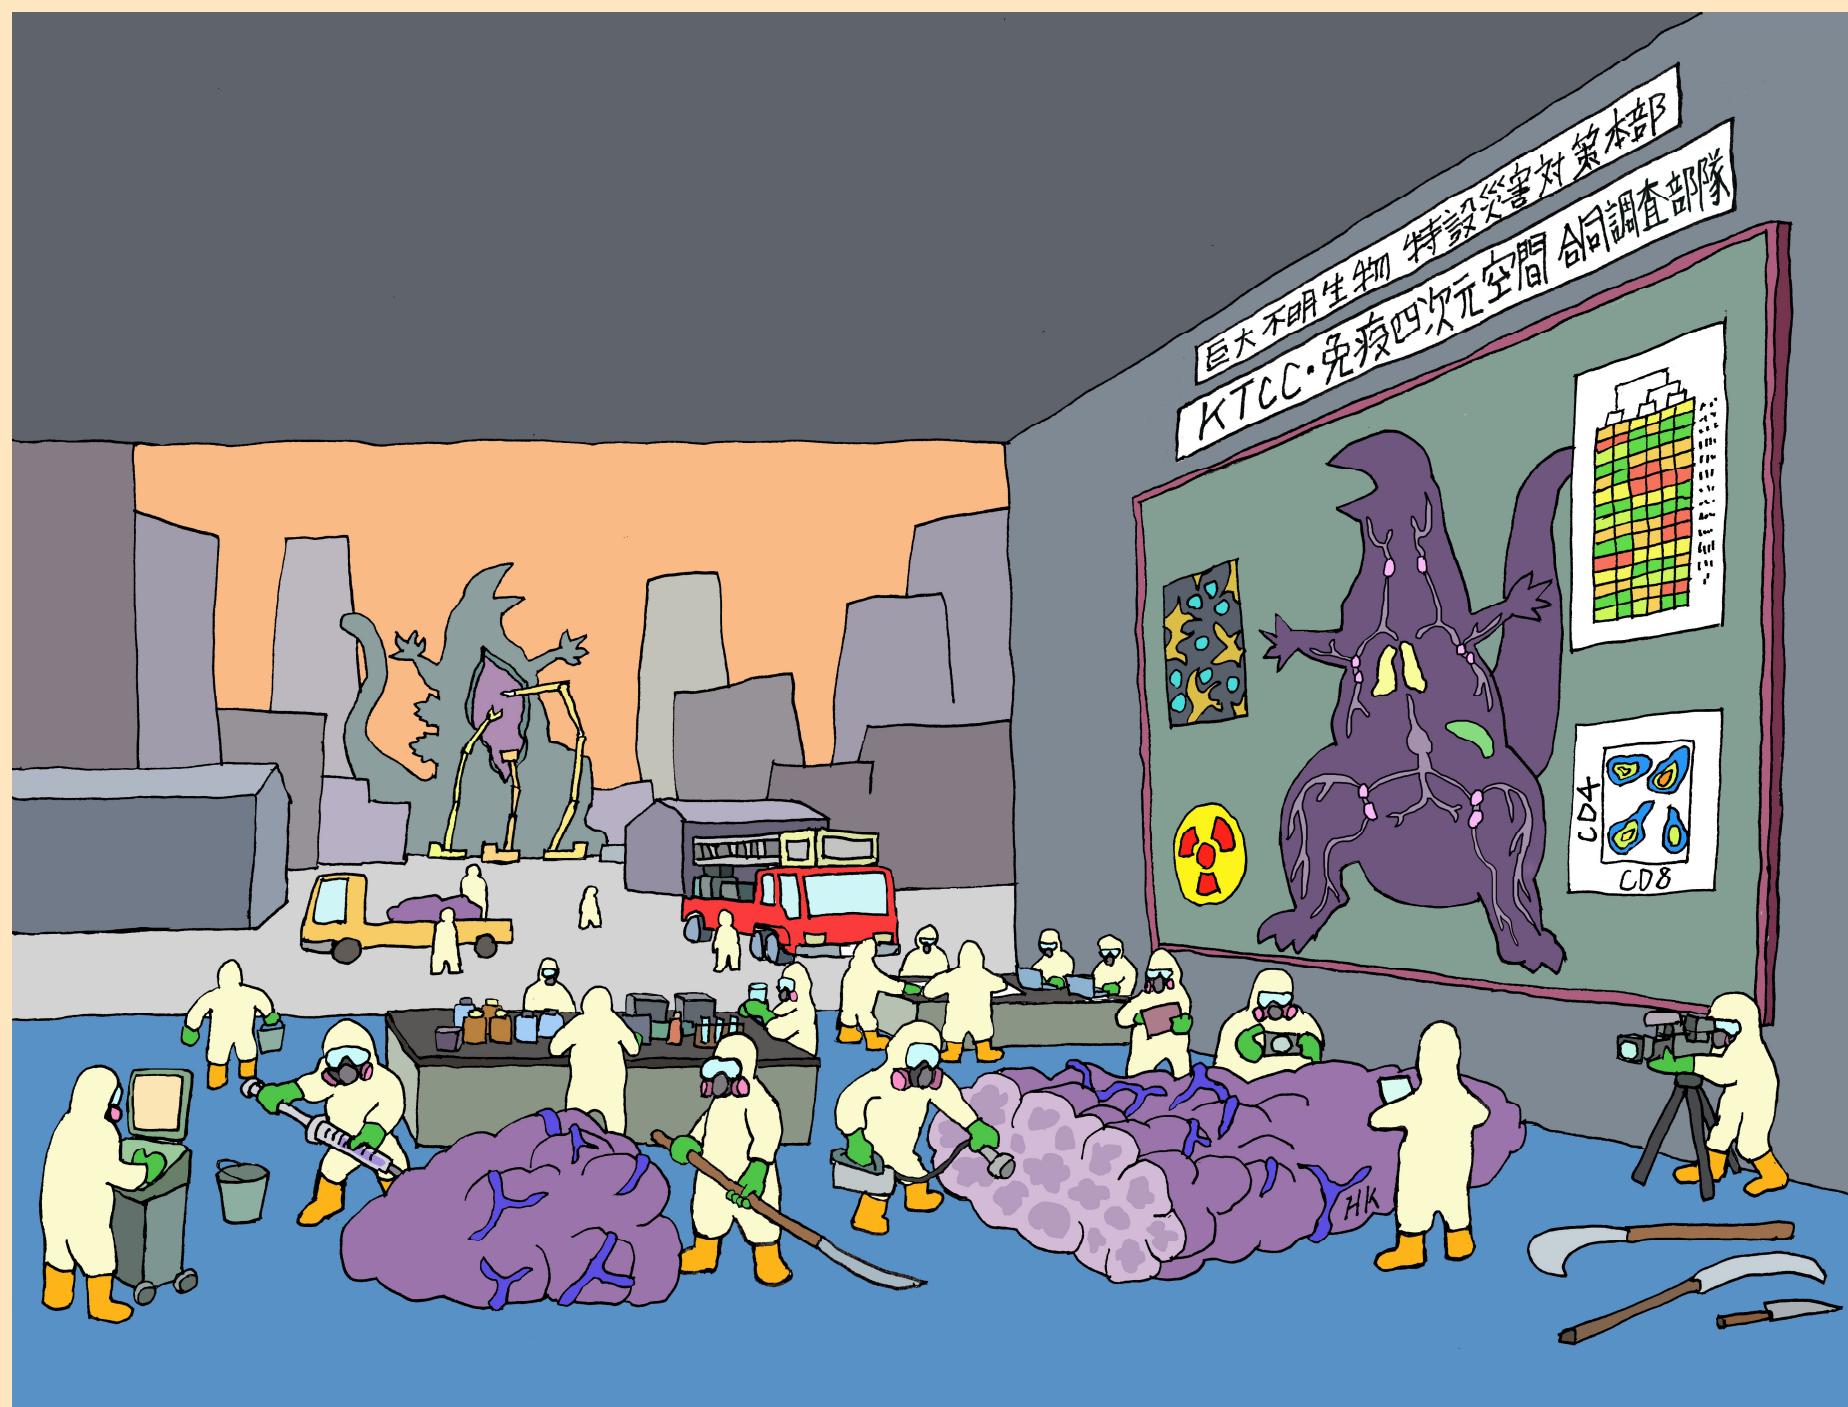

Jonathan Sprent
Shigeo Koyasu
Nagahiro Minato

Special lecturer

Shimon Sakaguchi

International registrants include:
(confirmed as of 9th November 2016)

Jakob Abramson	Georg Höllander
Graham Anderson	Ludger Klein
Avinash Bhandoola	Nancy Manley
Thomas Boehm	Cornelis Murre
Clare Blackburn	Janko Nikolich-Zugich
Remy Bosselut	Hyun Park
Richard Boyd	Pärt Peterson
Ann Chidgey	Freddy Radtke
Vishwa Deep Dixit	Ellen Richie
Lauren Ehrlich	Hans-Reimer Rodewald
Wilfred Ellmeier	Ellen Rothenberg
Douglas Engel	Roland Scollay
Nicholas Gascoigne	Alfred Singer
Katia Georgopoulos	Charles Surh
Dale Godfrey	Naomi Taylor
Daniel Gray	Marcel van den Brink
Cynthia Guidos	David Wiest
Adrian Hayday	Li Wu
Kristin Hogquist	Juan Carlos Zúñiga-Pflücker

Topics to be discussed include:

Thymus microenvironments
Progenitors and lineage commitment
Selection and differentiation
Recognition and activation
Immune response and memory
Stromal cells for immune functions
Aging of immune system
Disease and immune regulation

KTCC2017 Organizers

Manami Itoi
Hiroshi Kawamoto
Toshinori Nakayama
Takehito Sato
Ichiro Taniuchi
Yousuke Takahama, Chair

Abstract deadline: 30th November 2016

Selection for oral and poster presentation will be made by the organizers

- Travel bursary of 100, 000 JPY per abstract application is available for 20 postdocs and graduate students from outside of Japan
- Registration fee: 10,000 JPY (on site in cash only)
- For more information, visit our website: <http://ktcc.umin.jp>

Co-organized with The 7th International Workshop of
Kyoto T Cell Conference

a part of the Global Thymus Network conference series, alternating
with ThymOz, EUThyme, and ThymUS
